University Update - Revised Schedule

Summary of Revised Schedule (Subject to Change)

- March 12-20 Face-to-face classes as normal
- March 21-29 Spring Break
- March 30-April 10 Classes in alternative delivery
- April 10-13 April Break
- April 14 Face-to-face classes resume

Due to Public Health Officials’ (Grant, Sauk and Richland County) belief that there is a possibility of COVID-19 spreading in coming weeks and based on Centers for Disease Control recommendations, UW-Platteville is suspending face-to-face instruction beginning on Monday, March 30 (following the week of Spring Break) on all three UW-Platteville campuses. **Face-to-face classes will be held as scheduled through Friday, March 20.** Beginning on Monday, March 30, UW-Platteville will initiate alternative delivery methods for all classes until Tuesday, April 14, at which time face-to-face classes are scheduled to resume. The situation is constantly evolving and being evaluated.

When students leave for spring break, they are encouraged to bring all course-related materials with them. Students should be mindful of taking personal essentials, such as medications, for an extended period of time in case the situation changes. Once anyone leaves the local area, they should stay away from the campuses until Monday, April 13 to mitigate the possibility of exposure to the campus communities.

During this period of suspended face-to-face instruction, the university is **NOT** closed. Faculty and staff will continue to report to work. (More guidance for faculty and instructional staff will be coming from Provost Wilson.) Residence halls will remain open on all three campuses for those students who need to remain on campus, and limited dining services will be available.

At this time, there are still no known or immediate threats on any of the three campuses. UW-Platteville officials continue to monitor the situation in collaboration with health officials and will adapt plans as needed.
