Pearson Guide/Training

I wanted to reach out during this time to ensure you and your students are ready with what is needed to be successful and have no disruption in learning!

I am aware that University of WI Platteville classes will have to be held online, I wanted to reach out to you and offer to help. If you would like to add assignments or readings to your courseware that is already setup let me know. If you need help in setting up your course, I am happy to meet you online or setup a virtual setup and walk you through your options.

From the MyLab/Mastering Homepage on the lower left look for Instructor Resources. These are available for you to use and utilize immediately to help engage students in a variety of ways!

Getting started with Mastering

*If you plan to access your MyLab course from your school’s own learning management system (like Canvas/Blackboard/Moodle/D2L) – you will want to click here to get started: LMS help for instructors

- Create Your First Course
- Creating Assignments
- Configuring your Gradebook

Getting Students Registered

- Guide to Get your Students Registered
- Student Video: Getting Registered

Getting started with MyLab

*If you plan to access your MyLab course from your school’s own learning management system (like Canvas/Blackboard/Moodle/D2L) – you will want to click here to get started: LMS help for instructors

- Create Your First Course
- Setting Up Assignments

Getting Students Registered

- Guide to Get your Students Registered
- Student Video: Getting Registered

Getting started with Revel

*If you plan to access your Revel course from your school’s own learning management system (like Canvas/Blackboard/Moodle/D2L) – you will want to click here to get started: LMS help for instructors

- Revel - Get Started
- Revel - Create Assignments
- Revel - Manage Student Performance
A few resources that can keep that in class engagement flowing online as well as keep students on track learning for MyLab/Mastering Courses:

**Dynamic Study Modules** - a different style of interactive questions - [quick overview video](https://www.pearson.com/news-and-research/working-learning-online-during-pandemic.html) You can assign Dynamic Study Modules as well.

The **Pearson E-text** has (with games and flash cards and worked example videos) and in the MyLab/Mastering Study Area/Study Plan students have access to (Self Quizzes, Study notes by chapter, Key Concept and Worked Example videos)

In addition if you would like to interact with students, you can use learning catalytics – [quick overview video](https://www.pearson.com/news-and-research/working-learning-online-during-pandemic.html). This would be a great way to engage students actively even when they are out of the classroom.

For your students they may have a lot of questions during this time and we want to make sure your time, energy and attention is on teaching and learning not how to get access to online content. Please have your students contact Pearson 24/7 365 days a year Student Support here!
